

Morehouse School of Medicine

Department of Community Health and Preventive Medicine

Presents

2009 Public Health Summit: REDUCING AND ELIMINATING HIV/AIDS DISPARITIES THROUGH PUBLIC HEALTH STRATEGIES

Accreditation

Morehouse School of Medicine is accredited by the Accreditation Council for Continuing Medical Education to sponsor continuing medical education for physicians.

The Morehouse School of Medicine designates this educational activity for a maximum of 12 AMA PRA Category 1 credit(s)™. Physicians should only claim credit commensurate with the extent of their participation in the activity.

ACCME requires instructors, planners, managers and other individuals who are in a position to control the content of this activity to disclose any real or apparent conflict of interest they may have as related to the content of this activity. All identified conflicts of interest are thoroughly vetted by MSM for fair balance, scientific objectivity of studies mentioned in the materials or used as the basis for content, and the appropriateness of patient care recommendations.

Wednesday, April 1 2009

1 p.m. - 5 p.m.

Dr. Kevin Fenton

Centers for Disease Control and Prevention

Keynote Speaker

Auditorium

Louis W. Sullivan National Center for Primary Care

Summit Goals: The Public Health Summit will provide a forum to educate public health and medical professionals and students about current HIV/AIDS trends and the impact of the disease on diverse communities. It will present an opportunity for dialogue regarding effective public health strategies to prevent the transmission of HIV and to reduce racial and ethnic disparities in AIDS morbidity and mortality. It will provide opportunities for public health professionals, medical professionals, researchers, students and community members to strengthen their collaborations related to HIV/AIDS careers in research, treatment and prevention programming.

Objectives (After attending this conference, participants will be able to):

- Discuss HIV/AIDS issues, trends and disparities across U.S. and global populations.
- Describe recent research findings regarding effective HIV/AIDS intervention models.
- Discuss national, state, local HIV/AIDS prevention and treatment service delivery systems.
- Cite at least 3 new networking contacts with whom they can collaborate on educational, treatment, prevention, or research programs.

Onsite registration begins at noon and a reception will follow the program

720 Westview Drive SW • Atlanta, Georgia 30310-1495 • www.msm.edu
